

# Removal of toxic/ non toxic fumes

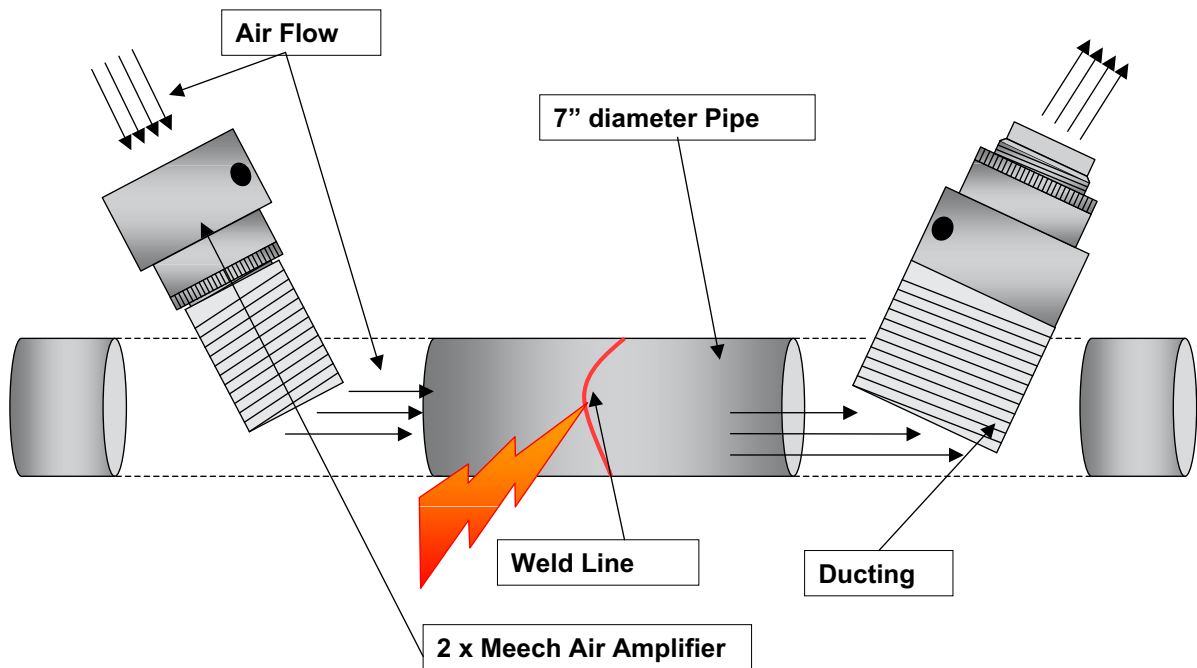

Energy Saving Air Amplifiers

MAT - Energy Saving Air Amplifiers  
- Removal of toxic - non toxic fumes -  
ISSUE 1/EN-01/10

## Application/ Problem

Fume extraction, a pipe can be connected to the sucking end to dissipate fumes to safe environment (filter may be needed).

## Example/Solution

A manufacturer is welding 7' diameter pipe over long distances. They need to evacuate the welding fumes to the closest opening. Two Air Amplifiers can be used one that pulls the fumes out through an opening and another that pushes fresh air into the pipe.

Products shown in this document may be covered by one or more patents, patents applied for and/or registered designs and/or trade marks. For further information please refer to our Head Office or visit [www.meech.com](http://www.meech.com).
