

Product Blowing

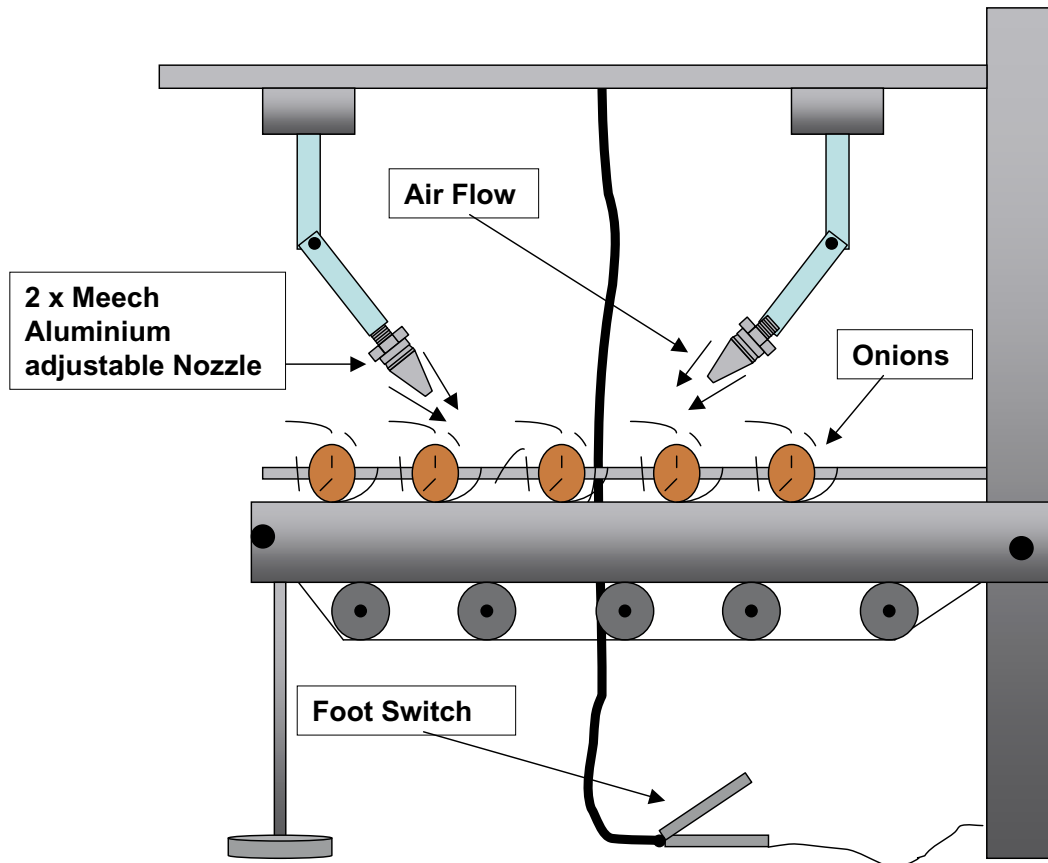

Energy Saving Safety Nozzle & Blow Gun

MAT - Energy Saving Safety Nozzle
& Blow Gun - Product blowing -
ISSUE 1/EN-01/10

Application/ Problem

The operation of Meech Air Nozzles can be connected to a footswitch. This frees up operators hands for other work.

Example/Solution

A food company was having problems with the waste skin on onions being caught up in the packaging process. Meech Air Nozzles were used to blow the skin from onions before packaging. This solved the problem in the packing problem and also improved the aesthetics of the onion.
