

# Space Saving Cooling

Cabinet Cooler

MAT - Cabinet Cooler - Space Saving  
Cooling - ISSUE 1/EN-01/10

## Application/ Problem

The small size of the Cabinet Cooler means they can be installed where space is a premium or where a more traditional air conditioning unit won't fit.

## Example/Solution

A metal treating company was leaving the cabinet doors open due to high ambient temperatures. A cabinet cooler unit allowed them to close the cabinet doors and restore a safe atmosphere within the cabinet.
